In case they push the briefing past Tuesday, I'll ask hannah for her input. I don't want to send now, bc I know her well enough and she'll review today.

I thought Andy actually did a decent job here of being balanced. I have suggestions on tone in a couple of places, and trying to simplify the language in our initial objection a bit.

Best regards,
 Ryan

Ryan – Do you anticipate engaging Hannah in this? I've asked Melissa Simic and Jillian Toothman to look at it too but they are both out until Tuesday.

I'm out on Tuesday, so I'll ask Dan to coordinate with Ryan about consolidating SRMD comments.

Greg

SRMD – please provide edits as you see fit. Please work with DWPD to share the point data with Andy. The briefing is currently being rescheduled.

Thank you
Jennifer

Subject: RE: PFAS Dashboard

Colleagues – I am trying to capture the options for resolving the issue with showing UCMR3 data in the PFAS explorer.

Attached is a first draft of an options paper. I tried to capture what I understand of your views, but I am sure you can do it better. Please feel free to edit the boxes representing OWs views. I would plan on sharing this with the AAs and with Brett Doyle in advance of our discussion re: a decision on the topic.

I also attach a couple of screen shots showing the implications of the two options, for the case of SE PA. I used the EWG tool to map the points since we don't have any other data at the moment.

Comments welcome, it would be best if the options paper represented a collaborative effort between OW, ORD and OECA.

Thanks, Andy

Subject: PFAS Dashboard

Andy

Thank you for the discussion on Friday on the PFAS Dashboard and the remaining issues for which OGWDW is hoping for resolution. Most importantly, the current display of UCMR data by PWS zip code. From our conversation, it seems that there is at least agreement in principle as to how to address the other (non-zip-code) concerns and I've asked my staff to confirm this.

Regarding zip codes, as we discussed, the UCMR requires that zip codes be reported at the PWS level. My understanding

Ex. 5 Deliberative Process (DP)

General points

Ex. 5 Deliberative Process (DP)

Specific examples

Ex. 5 Deliberative Process (DP)

Finally, we sent a request to OW to schedule an AA-level briefing on the dashboard and it was scheduled right away. If you have difficulty with the current time/date, please let me know and I will ask Joe to work with OW to adjust.

Regards,
Jennifer
